Professional solutions for medical and specialist training needs

LEAF-EXCITEMED_(est)_UK.indd 1

The ideal Cardio Line for professional assessment and rehabilitation

Wellness in motion

Excite™ Med products have been developed to provide accurate tools for stress testing, assessment and rehabilitation purposes.

They offer the perfect solution for medical use and for those clubs that wish to differentiate themselves by providing an advanced testing service.

TESTING FOR ALL TYPES OF CLIENTS

Med Excite equipment provides an extensive library of Maximal, Sub Maximal and Military tests. The variety and versatility of test formats enable assessment of each client with the most appropriate tool for his/her condition and needs.

ECG AND METABOGRAPH COMPATIBLE

Run Med and Bike Med are able to interface with the most popular external testing instruments for Stress Testing (ECG) and Maximal Oxygen Consumption (Metabograph).

CUSTOM PROTOCOLS

The versatility of the equipment software enables doctors, physiotherapists and sport trainers to devise and implement in real time a wide range of test protocols and personalised training routines that can also be stored in the equipment memory.

SAFETY STANDARDS

Excite™ Med products adhere to the most rigorous safety standards as well as the essential requirements of TÜV GM certification. TÜV, CE and UL markings are the best guarantee of safety and prevention for clients and end users alike.

UNIVERSAL FUNCTIONAL ACCESSORIES

The availability of specific accessories for each product enhances the rehabilitation potential of the Excite™ Med Line.

ASSESSMENT AND EVALUATION WITH CARDIOMEMORY

This software packet is provided with every Excite™ Med product. It is the intelligent solution for clubs, sport teams, rehabilitation clinics and for whoever requires an effective but easy-to-use tool for real time monitoring of training and testing.

DURABLE AND QUIET

Run Med and Bike Med are part of the Excite™ family, the most innovative cardio line on the market. As such, they are extremely durable pieces of equipment developed to undergo high-use. Although sturdy during use, they are surprisingly quiet.
